RE: CT-1347 Status

Dear Dan:

The purpose of this letter is to update you on the status of CT-1347. The proposed modifications to Calciners 1 and 3 (AQD #s 17 and 48) were completed at the end of February 1998. Compliance testing will be conducted within 90 days as required. Construction for the Expansion Project has begun, but will continue at a slower pace than originally planned. The start-up date of Phase I has been delayed until September 2000.

The following table notes the revised schedule for the three phases of construction.

Phase	Begin Construction	Start-Up	Source AQD #
I	February 1998	September 2000	76, 79, 80, 81, 82
II	March 2000	January 2001	83
III	March 2002	January 2003	85

The revised schedule for modifications to existing sources are noted in the table below:
